(Special to The Evening World.) SARATOGA, N. Y., Sept. 19.-If I had not been for the disorder and confusion that marked the closing scenes, the Republican State Convention, which adjourned at 2.15 o'clock this morning. would have passed into history as a very common-place political gathering. What the delegates and spectators lacked in enthusiasm they made up in

There was the wildest time towards the end. The scene was disgraceful. Convention at several stages was of the character of a ward meeting, in which two opposing factions were strug-gling for control by the usual methods of shouting and bullying. The delegates forgot that they were

there to transact serious business, and that their proceedings, cut and dried as they were, should at least be dignified rum for appearance's sake. They yelled, howled, whistled, stamped

their feet, rudely interrupted speakers and refused of listen to them and some of them were refused a hearing alto-

might as well have tried to control a mob single-handed. An appeal from Mr. Sutherland, of Rochester, to the disturbers had the effect of restoring order for a few minutes one time. He sad: "You have refused to adjourn, and it is but fair that you should give every candidate a hearing."

It was probably because the delegates had so little part in making the slate and the order of business that they took so little pride in the proceedings. Perhaps the lack of enthusiasm may be ascribed to the fact that it was a machine Convention, and enthusiasm could rot be made by machine like the nomination.

not be made by machine like the nomination.

If the nominations of Morton, Saxton and Haight are not more enthusiasitically received by the Republicans of the State than they were by their representatives assembled in the Convention here, the ticket will lack that hearty support expected for it by the leaders. The delegates were impatient, and impatience led to intolerance, and intolerance to rowdyism, because they knew the expected would happen.

They knew their would be a lot of oratory, and that Morton, Saxton and Haight would be nominated. There was nothing to anticipate except tiresome talk, and they got tired of it.

Rather Poor Oratory.

The oratory, too, was of the most com-monplace order. Not one speaker, with the exception of Lemuel Ely Quigg, suc-ceded in holding the attention of the crowd, and Chairman Miller neither in-spired respect nor curlosity enough to cause a in: in the riotous doing on the floor.

Senator Saxton got away from here as quickly as possible. He went to Albany this morning to consult with friends. The other leaders are tired and worn out and will take a short rest.

Mr. Platt did not leave his room this morning. Chairman Brookfield is going to take a short vacation in the Adiron-ducks. Senator Miller is not in good health. He will leave for his home, in Herkimer, to-day, and announce from there a committee of nine to notify the nominees.

After Haight was nominated the delegates refused to stay any longer, and Mr. Miller had to make and second the motion for the Committee himself, and Secretary Kenyon recorded it carried.

Gov. Flower's determination not to try for a renomination was reached very when every one supposed he had what ls, in race-track parlance, termed "a cinch." His recent tour of the farming districts and his speeches to the farmers Taber, seemed to indicate that he was stumping the State to win delegates, and now his sudden change of heart and mind is been notified by the machine bosses that he must stand aside and let Hill try for the goal.

Hill is the acknowledged leader of the machine in the State, and his personal popularity, it is confidently believed, would strengthen the machine and perhaps heal or bridge over the differences that now exist between certain of the party leaders in the State.

Senator Hill has not announced his candidacy, but some of his friends in this city, who usually "speak by the cation, however) that Hill is almost cer-

cation, however) that Hill is almost certain to be pitted against Morton for the Governorship.

Next to Hill, local Democrats prefer William C. Whitney, and John Boyd Thacher, said to be Hill's selection, is their next choice.

There is a noticeable absence of regret on the part of Tammany officials at the withdrawal of Gov. Flower from the Gubernatorial race. In fact, there seems to be a feeling of satisfaction in some quarters. In others, marked indifference characterizes the replies of former supporters of Mr. Flower to questions concerning the effect of his retirement on the party.

Mayor Gilroy, who it may be presumed voices the sentiment of Tammany Hall, said to-day when asked what would happen now:

The suicide was of the most deliberate order The pistol with which he killed himself had evidently been bought for the pur-pose, and he shot himself so that when he fell his body dropped into the water. Chatfield, who was commander of Farnsworth Post, No. 170, G. A. R., ived at 126 Franklin avenue, Mount Vernon, which is only a short distance from this place. He left his home as usual on Monday morning, but did not go to New York. Nothing was heard of him from that time until he was seen here immediately before the shooting.
It was about 6 o'clock when John Mailory, a carpenter, who lives near Cowan Dock, had his attention attracted to Chatfield. The latter had taken off his coat and waistcoat, folded them up neatly and placed them under an un brella, which he had stuck in the mud.

Next he took off his hat and placed it under the umbrella beside the coat and

Next instant he fell backward into the creek.

Mallory and his brother hastened to the scene but the body had drifted out beyond their reach, but it was recovered later. They then sent a essenger after the Coroner, and started to investigate the contents of the packets of the coat and satchel.

Chatfield had written a letter to his wife and put it in an envelope, which he stamped and directed to her at her home at Mount Vernon.

At the last moment, however, he evidently changed his mind and tore up the letter, leaving the envelope behind, which was found. Beside the satchel the two men found a box of 35-calibre to cartridges and the pistol, which was of the changes their leaving the envelope to the changes their leaving the cartridges and the pistol, which was of the changest kind.
